

This exploded perspective view shows the main housing (10) of the device. It features a display (14) and a keypad (21) on its front face. The housing is secured by a cover (11) which is attached via screws (12). A cable (28) with a connector (29) and a coiled section (30) is shown connected to the side of the housing. Various internal components and connectors are labeled, including 13, 15, 16, 19, and 26. A battery (20) is shown separately at the top, designed to fit into the back of the housing.
